SUMMARY

Software Engineer with 1.8+ years of experience in Java, Spring Boot, Angular, SQL, and enterprise application development. Experienced in **production support**, root cause analysis, **API troubleshooting**, and **defect resolution**. Hands-on experience with Salesforce technologies including **Apex**, **SOQL**, Lightning Web Components (**LWC**), **Triggers**, and Service Cloud through a personal project. Strong problem-solving and with a passion for learning new technologies.

TECHNICAL SKILLS

Programming Languages: Java 17, JavaScript, TypeScript, Python

Backend: Spring Boot, RESTful Web Services/APIs, JWT, JPA/Hibernate, Microservices

Frontend: HTML5, CSS3, Angular20

Databases / DBMS: MySQL, PostgreSQL, JDBC

Salesforce: Apex, Apex Triggers, SOQL, Lightning Web Components (**LWC**), Service Cloud, Salesforce CLI

Tools for Ops & Debugging: Git, VS code, Postman, IntelliJ IDEA, log4j, Maven, Swagger

EXPERIENCE

LTM | Software Engineer

Dec 2024 – Present | Mumbai, India

Project: Citi iOps Portal

- **Enterprise Application Development (Java, Spring Boot):** Developed and enhanced backend services and REST APIs for onboarding, assessment, and resource management workflows.
- **Frontend Development (Angular):** Built and maintained business workflows, dynamic forms, and data-driven UI components for enterprise applications.
- **Production Support & Troubleshooting:** Performed root cause analysis, defect resolution, and issue investigation for production incidents and user-reported problems.
- **API Development & Database Management (REST APIs, MySQL):** Designed APIs and optimized database queries to support business processes and improve application performance.
- **Agile Development & Collaboration (Git):** Worked with cross-functional teams on feature development, code reviews, deployments, and production releases.

PROJECTS

Salesforce Service Cloud Case Management System

Technologies: Apex, Apex Triggers, SOQL, Lightning Web Components (**LWC**), Salesforce CLI, Service Cloud.

- **Case Management Automation (Apex, Service Cloud):** Developed a Salesforce application to manage support case creation, assignment, and tracking workflows.
- **Business Logic Implementation (Apex Triggers):** Automated case routing to support teams based on issue category and implemented SLA due date calculation.
- **Data Access & Querying (SOQL):** Developed Apex Controllers and SOQL queries to retrieve and display support case information.
- **User Interface Development (Lightning Web Components):** Built interactive dashboard components to display real-time case data and support workflows.
- **Salesforce Customization & Deployment (Salesforce CLI):** Extended the standard Case object with custom fields and deployed metadata using Salesforce DX and Salesforce CLI.

CERTIFICATIONS

Oracle Certified Professional: Java SE 11 Developer (OCJP)

January - 2025

EDUCATION

Sinhgad Institute of Technology

Bachelor of Information Technology — CGPA: 8.95

Feb 2020 – Jun 2024

Pune, Maharashtra
